Dear First Nations Communities and Municipal Councils:

RE: Allan J. MacEachen Regional Airport Ownership and Governance Models

On January 7, 2020, the Port Hawkesbury Town Council unanimously approved a motion to explore alternate ownership models for the Allan J. MacEachen Regional Airport located in Port Hastings, Nova Scotia. The motion came forward as a recommendation from the Allan J. MacEachen Regional Airport Committee. This committee's membership historically includes elected officials and senior staff from the Municipality of the County of Inverness, the Municipality of the County of Richmond, and the Town of Port Hawkesbury. More recently, membership has been extended to the First Nation Mi'kmaw Communities of We'koqma'q and Potlotek and to garner interest from other neighboring communities.

The Honourable Allan J. MacEachen chose the airport's central location in Port Hastings, Inverness County, which is significant for many reasons. Geographical strategy placed the airport in the heart of the Strait Region — which contributed to our regional quad-transportation hub of rail, road, port and air. The long-term sustainability of this transportation hub creates a significant competitive economic advantage to both the Strait region and western Cape Breton. This airport is five minutes away from the primary road and sea gateway to the Island of Cape Breton/Unama'ki, the Strait of Canso Causeway, which provides close access to the mainland municipalities of eastern Nova Scotia as well as the First Nation community of Paqtnkek.

The Town of Port Hawkesbury has held the deed to this regional airport and air gateway in good faith for the benefit of the Strait region and western Cape Breton/Unama'ki. Historically, airport governance has been built on a foundation of inter-municipal cooperation with Inverness, Richmond and Port Hawkesbury Councils.

For the past five decades, the ownership structure and governance of this airport served the needs of the region, providing adequate 24/7 air access for private aircraft, public service providers like Ground Search and Rescue and Air ambulance, private charters, recreational users and for use by business and industry.

Since 2012, the Allan J. MacEachen Regional Airport has been on a trajectory of growth and public sector use. Jet fuel sales grew exponentially paralleled by a significant increase of private jet landings and charters. The airport's growth can be attributed to diversification into the tourism sector, particularly for Cape Breton's world class golfing experiences.

Presently, the Town has a contract with Celtic Air Services to manage the airport. Celtic Air Services has made considerable investments into this regional air asset which is open 365 days and includes international marketing, instillation of a new visitor/receiving centre, fueling infrastructure, and more. The airport runway is 5000 feet long and 150 feet wide and has accommodated aircraft as large as a Boeing 737 aircraft.

From a funding perspective, the Allan J. MacEachen Regional Airport transitioned in 2012 from an airport that required heavy annual subsidization by all three governing municipalities of \$40,000 per municipality for daily operations, to a minimal annual contribution to the airport capital reserve fund of \$15,000 per municipality. The capital reserve fund from revenue and annual municipal contributions now totals \$740,000 which will help offset future investment in air infrastructure.

It is the belief of the Town of Port Hawkesbury Council that this regional air gateway has significant potential to be an economic driver for our region. We have been in discussions with Nova Scotia Business Inc. regarding the potential for pursuing various aerospace opportunities including but not limited to the educational sector in partnership with the Nova Scotia Community College, Strait Campus, and the Nautical Institute, and exploring potential aerospace industrial and business opportunities. There is also the potential for further diversification for the tourism sector (for example, the Allan J. MacEachen Regional Airport is the closest FBO to Sable Island).

The Allan J. MacEachen Regional Airport is one such air gateway that can be pivotal in the creation of new aerospace businesses and industries, training emerging aerospace specialists, welcoming even greater numbers of citizens to our Strait region and western Cape Breton, creating new partnerships with the tourism industry, and, reconnecting with our trail blazing history as the birthplace of Canadian aviation!

It is the belief of the Port Hawkesbury Town Council that maintaining the status quo for both ownership and governance is not optimal for maximizing and positioning the Allan J. MacEachen Regional Airport for further growth. At present, the ownership model does not reflect the regional role of this air asset.

The Town of Port Hawkesbury Council sees great benefit of transitioning both the ownership and the governance of this regional air gateway to a collaborative and collective ownership model that brings with it more resources, more influence, more knowledge and innovation, and more possibilities. More so now than ever, we, as local leaders, need to play a vital role in our future. We believe maximizing the potential and growing our regional gateways will be key to growing our regions. It is imperative that we do this together.

This letter is an invitation to begin a conversation with the Town of Port Hawkesbury and the Airport Committee regarding the creation of a new ownership and governance model for the Allan J. MacEachen Regional Airport. We invite you to help us determine viable ownership models or options that will position this airport for a strong sustainable future. If you see value in being part of a strong sustainable future for this air gateway in Port Hastings, we would ask your Council to consider for a motion:

"To join with the Town of Port Hawkesbury and other interested First Nations and Municipal Councils to explore alternate ownership and governance models for the Allan J. MacEachen Regional Airport".

If this process yields a new ownership and governance model, decisions to participate would need to go back to each individual Council for a final decision.

The Town of Port Hawkesbury will ask for each First Nations or Municipal Council to express their interest to join this process by March 31, 2020. Formal meetings will be organized in April 2020, to commence in May 2020. Accompanying this letter are financial statements pertaining to the Allan J. MacEachen Regional Airport.

The Town of Port Hawkesbury Council would like to thank you for your consideration, and we look forward to working with you. Additional information can be accessed through the Allan J. MacEachen Regional Airport website at www.allanjairport.ca or by contacting the Town of Port Hawkesbury.

Sincerely,

Brenda Chisholm-Beaton

STAFF REPORT

TO: Committee of the Whole

FROM: Tammy Feltmate, Director of Sustainable Communities

SUBJECT: Accessibility – Establishment of a Municipal Accessibility Advisory Committee

DATE: 2020-02-20

<u>Recommendation</u> That the Committee approve the attached terms of reference and call for interest for the establishment of a Municipality of the County of Antigonish Accessibility Advisory Committee.

Summary

Municipalities in Nova Scotia are required to have Accessibility Plans in place by April 2021. This committee and its terms of reference as presented are informed by the Nova Scotia Accessibility Directorate.

Background

Nova Scotia is on a journey to become an accessible province by 2030. This includes working with our municipal counterparts, and others, to remove the barriers to inclusion that people with disabilities continue to face every day. All municipalities in Nova Scotia are developing Municipal Accessible Advisory Committees and must have Accessibility Plans completed by April 2021. According to Statistics Canada, 30 per cent of Nova Scotians aged 15 years and older identify as having

at least one disability. That is nearly 230,000 Nova Scotians. If we used the 30% calculation that would mean 5790 residents in our community live with at least one disability. A municipal accessible advisory committee will support the public engagement and development of our municipal plan.

The Municipality has already had successes in this area, a plan will provide structure and visibility to what we are already trying to achieve with access to our services, programs and community. Municipalities must:

- Issue a public call for committee members.
- Approve committee members through municipal council.
- o Confirm a Chair and Vice Chair annually for committee.
- o Provide and Orientation to the Accessibility Act (support from Directorate is available for this).
- Agree on a Statement of Commitment, a policy statement, which outlines our municipality's commitment to improving accessibility.

Budget Implications \$15-\$18,000 for 2020-21.

<u>Alternatives</u> No alternative suggested.

Next Steps

Invitations to join the committee would be issued along with public call for interest. A committee would be established by April 30, 2020 with the inaugural meeting to happen within 2 weeks. A budget developed and presented during budget 2020-21 deliberations. A workplan developed and presented to the first committee meeting with targets and timelines for milestones throughout the next year, with plan delivery to municipal council in February 2021.
